

## Unakite

**Unakite is from the feldspar family of minerals like moonstone. Sometimes it is known as Epidote. This beautiful bright green and pink crystal resonates very well with the heart chakra.**

**In this last installment you will journey with unakite and ruby together.**

**I hope that you will find the journey uplifting, nurturing but empowering too.!**

**Unakite is one of the more recently available crystals found. I feel it is sometimes overlooked energetically and you can often find it in shops shaped into spheres, hearts and eggs to be used as ornaments.**

**I recommend that you work with unakite after working with ruby (but of course that is up to you and your intuition!)**

**So please listen to the mp3 unakite attunement then spend time working with it and do the last Crystal Journey with ruby and unakite.**

**I am really looking forward to hearing your feedback.**
